

Insulators, Conductors and Circuits

Vinton County High School
McArthur , Ohio

Project Information

Project Leader: Karen Matteson

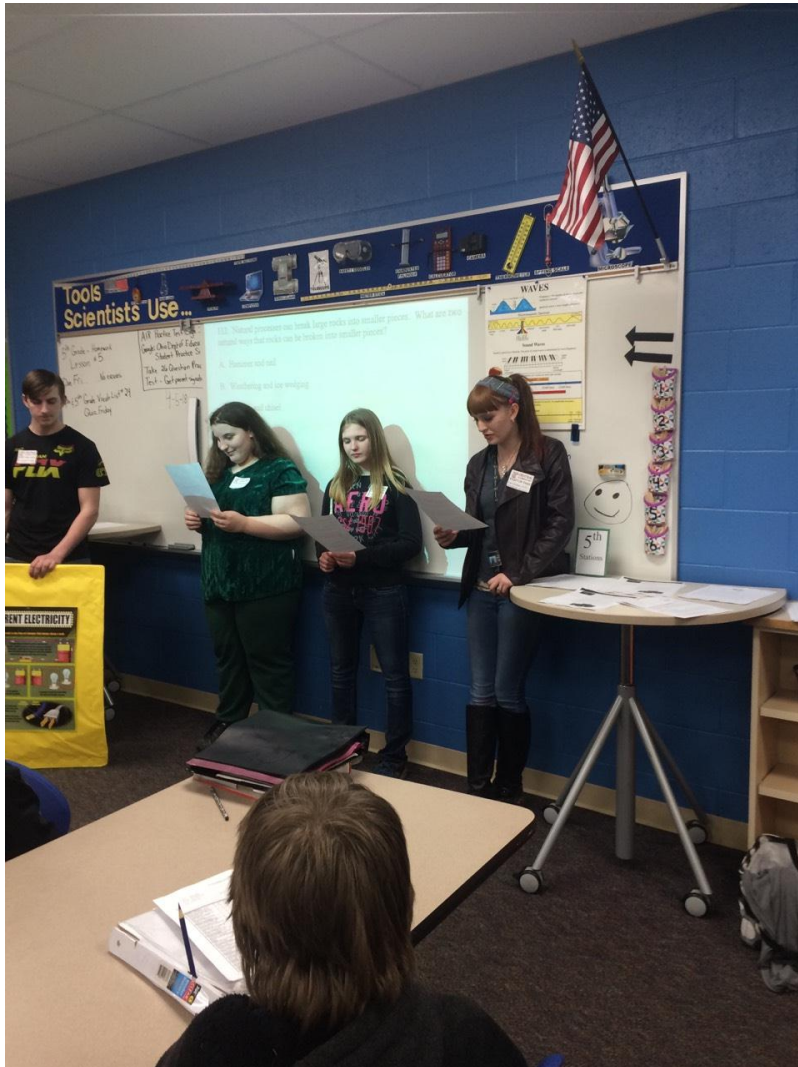

Student Directors: Felicity Smith, Heather Popp

Our goal was to present an electricity lesson to an elementary classroom. As you can see from the our project was a success! We hope to visit Mrs. Goodwin's class once each 9 weeks next year.

We sent a photo and short article to our school website.

Introduction

ADD CAPTION HERE

We explain how electricity works.

Closed circuit

ADD CAPTION HERE

The circuit is closed and the light bulb comes on.

Group closed circuit

ADD CAPTION HERE

We used the energy baton to show how the electric current flows.

Experiment

ADD CAPTION HERE

We see if the electric current passes through different materials.

Let`s see

ADD CAPTION HERE

Will electricity pass through wood?

Learning time

ADD CAPTION HERE

We record our results.

Thank You's

A big thank you goes to the Ohio Energy Project. We used the 4th grade lesson plans and our energy batons also came from OEP.

Thank you Mrs. Goodwin and class for letting us present our lesson. We want to visit every 9 weeks next year.
