

**energy from
burning plants,
trash, and organic
matter**

**energy from
burning plants,
trash, and organic
matter**

**energy from
burning plants,
trash, and organic
matter**

energy from
the rays of
the sun

energy from
the rays of
the sun

energy from
the rays of
the sun

**energy produced
by moving
water**

**energy produced
by moving
water**

**energy produced
by moving
water**

**energy
produced
by moving air**

**energy
produced
by moving air**

**energy
produced
by moving air**

heat and steam
energy from the
earth's core

heat and steam
energy from the
earth's core

heat and steam
energy from the
earth's core

**a fuel refined
from natural
gas & petroleum**

**a fuel refined
from natural
gas & petroleum**

**a fuel refined
from natural
gas & petroleum**

a fossil fuel
in the form
of a solid black
rock

a fossil fuel
in the form
of a solid black
rock

a fossil fuel
in the form
of a solid black
rock

**energy from
fission, or the
splitting of
uranium atoms**

**energy from
fission, or the
splitting of
uranium atoms**

**energy from
fission, or the
splitting of
uranium atoms**

**a colorless,
odorless fossil
fuel mostly made
of methane**

**a colorless,
odorless fossil
fuel mostly made
of methane**

**a colorless,
odorless fossil
fuel mostly made
of methane**

**a fossil fuel that
is a thick black
liquid**

**a fossil fuel that
is a thick black
liquid**

**a fossil fuel that
is a thick black
liquid**
